

Title of Your Project

1. **Student Name:** Reema Alwadi
 2. **Student Number:** 300349827
 3. **Inspirational Business Site:**
<https://www.porsche.com/canada/en/> a cool car company and was very easy to use
<https://www.apple.com/> liked how everything was sleek and simple
 4. **Chosen Business Type:**
Which business type you chose and why?
I chose a car mechanic service because, during my research on mechanic and body shop websites, I noticed a lack of well-designed and effective pages. Additionally, there seems to be a general scarcity of garage websites altogether.
 5. **Two General Personas you considered:**
Bobby loves driving fast cars but was driving recklessly and damaged his front bumper.

Sam loves her new Mustang and wants to keep it in top condition. She's searching for a reliable auto body shop to become her go-to place and is currently reviewing rates before making a commitment.
 6. **Mockup Screenshots:**
Select Change image/Replace Image with the screenshots of your mockup pages
In this section you will provide clear screenshot image for each page
**** The border around each page is to distinguish between the pdf document and the mockup page screenshot****
